

# Health Care Workforce

## Summary of Discussion

This panel discussion will highlight the current state of the health care workforce in California. Specifically, this discussion will present challenges and opportunities of the health care workforce today and the role that the Department of Health Care Access and Information and the California Health Care Foundation each play in enabling the expansion and development of a health care workforce that reflects California's diversity. The presenters will also explore the role that CalPERS and other purchasers may have in ensuring our health care workforce can continue to support our members' health care needs.
