CHIEF INVESTMENT OFFICER'S LETTER

November 16, 2017

On behalf of the CalPERS Investment Office, I am pleased to report on CalPERS' investment performance, operations, and initiatives for the one-year period ending on June 30, 2017. The CalPERS Public Employees' Retirement Fund (PERF) earned a time-weighted rate of return of 11.2 percent this fiscal year, with the ending fair value of investments at \$326 billion.

The strong 12-month returns were led by the public equity investments, which generated a 19.6 percent return. Private equity also delivered double-digit net returns at 13.9 percent, followed by real assets, with net returns of 7.4 percent.

While the positive returns are encouraging, our focus is always on the long-term sustainability of the PERF. CalPERS invests for decades, not a single year.

With this in mind, in late 2016 the CalPERS Board made the difficult, but important decision to lower the discount rate for the PERF from 7.5 percent to 7.0 percent over the next three years. This incremental reduction of the discount rate, also known as the assumed rate of return, was done to give employers more time to prepare for the changes in contribution costs. While this means many employers and employees will see increases to their costs, it also brings the PERF more aligned with what CalPERS can responsibly assume to return from our investments over the longer term.

At the same time, the CalPERS Investment Office continues to make strides to reduce the risk, cost, and complexity of the System, as outlined in our 2020 Vision Strategic Plan. In the annual cost effectiveness presentation, the Investment Office reported that CalPERS' ongoing fees and expenses for its investment operations have declined by approximately \$281 million since Fiscal Year 2010-11. Contributors to the savings include transitioning assets from external managers to internal management when possible, renegotiating external management fees, and decreasing the number of outside consultants and advisors. The annual Cost Effectiveness Measurement (CEM) Benchmarking Survey found that CalPERS' investment program continues to be a low-cost leader compared with peers.

This year CalPERS also continued to strongly advocate for shareowner rights. CalPERS invests in more than 10,000 public companies worldwide, and we use our proxy voting rights at those companies to effect changes in line with our Governance & Sustainability Principles. During this year's proxy season we saw progress in the areas of climate risk reporting and proxy access, which are main themes in our Environmental, Social, and Governance (ESG) Strategic Plan.

Significant progress was made on climate risk reporting proposals which passed at Occidental Petroleum,

Pennsylvania Power and Light (PPL), and ExxonMobil, while a proposal at Chevron was withdrawn due to substantial implementation. Most notably, the win at Occidental Petroleum was the first of its kind in the United States. There were also advancements surrounding boardroom accountability through the request for proxy access. During the year, CalPERS led 19 proxy solicitation campaigns tied to the corporate governance best practice, 16 of which passed with more than 50 percent shareowner support.

In addition, CalPERS continued to advocate for the one-share, one-vote structure for all shareowners. This was particularly notable this year when InterActiveCorp (IAC) pursued changing their voting structures for their own benefit. To protect our rights and our investment, CalPERS pursued legal action and successfully blocked these efforts.

In addition to managing current investments, CalPERS began a global solicitation for investment proposals from eligible mid-size external investment managers. Also known as transition managers, these firms provide CalPERS with unique investment opportunities that may otherwise be overlooked and will help to cultivate the next generation of external portfolio management talent. We also remain committed to our Emerging Manager Program, which identifies early stage managers with strong potential for success.

While we are a global investor, CalPERS is also proud to make investments in California. The Fiscal Year 2015-16 *CalPERS for California* report showed \$27.3 billion was invested in our home state, representing 9.3 percent of the PERF. These dollars were invested across multiple asset classes, including public equity, fixed income, private equity, and real assets. These commitments support local jobs, contribute to major infrastructure projects, and support business expansion efforts.

CalPERS is committed to the success and sustainability of our system. Our mission remains the same—manage the CalPERS investment portfolio in a cost-effective, transparent, and risk-aware manner in order to generate returns to pay benefits. While we are pleased with this year's strong returns, we continue to identify ways to reduce the cost, risk, and complexity of the Fund's portfolio and operations, while also maximizing investment returns.

Our Investment Office team, the Board's pension consultant Wilshire Associates, and State Street Bank & Trust, our master custodian, compiled the investment data presented on the following pages.

Ted Eliopoulos
Chief Investment Officer
